本測試之目的係在確認 EMC 營運所需 STB CA 措令均可由 SMS CA command gateway、NagraVision SMS gateway 及 CAS 等系統正確處理與傳送，在測試用 STB 上產生預期的功能反應。但本測試不包括針對測試 CA 與 STB 功能的用戶操作互動方式與內容顯示用字與編排設計的任何形式的評估與測試。This test is conducted only to verify that STB CA commands used in EMC operation are processed and transmitted correctly from SMS CA command gateway through NagraVision SMS gateway and CAS systems to generate expected functional responses on the target STB(s). However, subscriber STB operation interactions and content presentation (wording and layout) of these CA and STB functionalities on the STB(s) are not evaluated nor tested in any way in this test.

本測試之目的僅在確認 EMC 養選所需 STB CA 指令均可由 SMS CA command gateway、NagraVision SMS gateway 及 CAS 等系統正確處理與傳送。在測試用 STB 上產生預期的功能反應，但本測試不包括對所測試 CA 與 STB 功能的用戶操作互動方式與內容顯示/用字與編排設計的任何形式的評估與測試。This test is conducted only to verify that STB CA commands used in EMC operation are processed and transmitted correctly from SMS CA command gateway through NagraVision SMS gateway and CAS systems to generate expected functional responses on the target STB(s). However, subscriber STB operation interactions and content presentation (wording and layout) of these CA and STB functionalities on the STB(s) are not evaluated nor tested in any way in this test.
